

# The Kia EV6.

Movement that inspires

**WHATCAR?**

**CAR OF  
THE YEAR  
AWARDS  
2022**

Overall winner  
Kia EV6

# More range. More time. More inspiration.

Inspiration isn't just about having an idea. It's about leaving your comfort zone and feeding your mind with new surroundings. That's why we designed the Kia EV6 - a car that with its up to 328 mile range\* lets you explore more of what the world has to offer. Along with fast charging speeds that give you more time to create something new: the Kia EV6 takes as little as 18 minutes to charge from 10 to 80%\*\* , giving you more time to spend on things that matter to you most.

"The EV6 combines a huge real-world range with the ability to charge at speeds that no rival can keep up with, addressing two of the biggest concerns that people still have about electric cars. What's more, by using bespoke electric underpinnings rather than a set that's shared by petrol and diesel models, Kia has been able to take advantage of the compact size of electric motors and produce a car that's hugely spacious and practical.

Add in effortless performance, outstanding refinement, competitive pricing and one of the best warranties around, and the striking EV6 doesn't just look like the future - it feels like it too."

**WHATCAR?**

**CAR OF  
THE YEAR  
AWARDS  
2022**

Overall winner  
Kia EV6

- What Car?

\* The range was determined according to the standardized EU measurement procedure (WLTP) based on 77.4 kWh battery pack, rear wheel drive, and 19" wheels (pictured vehicle features 20" wheels). The individual driving style and other factors, such as speed, outside temperature, topography and the use of electricity-consuming devices/units, have an influence on the real life range and can possibly reduce it.  
\*\* In order to achieve the maximum charging speed, EV6 must use an 800-volt electric vehicle charger that delivers at least 250 kW of electricity. Actual charging speed & charging time may be influenced by the battery temperature and exterior weather conditions.

**Shift By Wire.** All you need to do to change gears between Reverse, Neutral and Drive is brake and turn the dial of the Shift by Wire system left or right. The P button puts the Kia EV6 in Park mode.

## In control of your charge status.

Time, distance and charging: the Kia EV6 presents information in the most intuitive way. The user interface lays out all essential pieces of information in front of you in the digital instrument cluster. You are always clear about your range, forecast battery charge time and Vehicle-to-Load status so you can relax and enjoy the ride.

**Drive Mode Select.** The Kia EV6 can adjust to the way you like to drive. Choose Normal, Sport or Eco drive mode using the steering wheel or voice controls. Sport mode lets you accelerate more quickly, while Eco saves energy to extend your driving range. Each mode has a theme display on the cluster screen with unique visual effects that may also switch from white to black at night.

**Smart regenerative braking system.** This improves the vehicle's range and stability by optimising front and rear-wheel regenerative braking. It can be operated with the steering wheel paddle switches and adjusts the level of regenerative coasting based not only on navigation data, but on radar data as well.

Images shown are for illustrative purposes only and not to UK specification.

## A new standard for sustainable mobility.

Interior design is about creating the most user-centric and immersive experience through design, intuitive technologies and sustainable elements. When you're inside the Kia EV6, not only can you appreciate how roomy it is, but also how sustainable it is. The upholstery makes use of vegan leather while the cabin uses abundant amounts of recycled and durable materials.

Images shown are for illustrative purposes only and not to UK specification.

# An immersive journey for everyone.

The Kia EV6 features a dual 12.3" curved display that offers maximum visibility and intuitiveness. Along with a sound system designed to bring an immersive listening experience to every seat. The Active Sound Design lets you choose between unique sounds that adjust to different RPMs and vehicle speeds (grade dependent). And in case your phone is running out of battery, the Kia EV6 comes equipped with a range of charging ports that complete the inspirational character of the interior.

**The dual 12.3" panoramic curved displays.** The Kia EV6's integrated curved displays are not only beautiful, but offer a truly immersive experience. They enhance the driving experience by providing high-definition navigation and important information, with minimal controls for an unobstructed and easy driving experience.

**Wireless phone charger.** The charging pad in the front centre console lets you charge compatible mobile phones wirelessly. It operates with up to 15 W of power, so charging is reassuringly fast (grade dependent).

**USB ports on seatbacks.** Convenience is important for everyone on board. Rear seat passengers will find USB ports in the seatbacks in front of them, so they can power their devices whenever they want.

**Meridian premium sound system.** With 14 speakers, the Meridian premium sound system creates an immersive experience, no matter whether you're listening to a podcast, your favourite artist or navigation instructions (grade dependent).

**Infotainment/climate switchable controller.** This digital control panel for infotainment and climate control functionalities provides an intuitive and luxurious interface. Simply press either the infotainment or climate icon and the relevant set of controls appears.

# Public charging made easy...

## Anxious about using multiple apps and accounts for charging across different public networks?

Worry not, Kia Charge gives you access to the vast majority of UK public charging networks including bp pulse, Pod Point, Source London, Instavolt, Shell New Motion, Osprey, Char-gy, IONITY and more. In addition, it works in 28 other European countries in exactly the same way as it does in the UK so you can travel long distance without any worries\*.

## The only app you need

You can start charging using either the app or dedicated card. And you don't have to make any payment on site: Everything is handled as part of a monthly, itemised billing process.

## Reliable, up-to-date information

You have all information at your fingertips. You can apply a range of filters to find the right station, with up-to-the-minute information about availability and pricing.

## Transparent pricing with monthly payment

There are two base tariffs to choose from. 'Easy' is a no-commitment tariff for light users of public charging while 'Plus' is for those who tend to charge away from home more often.

## Best value with a range of bolt-on subscriptions including IONITY

You can add up to two bolt-on subscriptions - for bp pulse and/or IONITY - to benefit from the best value possible when charging within these networks.

For more information, visit [kiacharge.com](https://kiacharge.com) or download the mobile application.

\*Charging outside of the UK is subject to the visited country's Easy tariff, regardless of your UK subscription. Kia Charge and KiaCharge.com/gb are offered by Digital Charging Solutions.

# Less searching and more discovering.

Let our technology handle the details. So you can stay more connected to the journey. By prioritising information, the fully electric Kia EV6 lets you take in more of the world outside, and spend less time scanning screens and dials. Information is presented on clean, compact digital displays, and can even be projected onto the windscreen (grade dependent).

**Augmented Reality head-up display.** The Kia EV6's head-up display projects driving information on the windscreen. It superimposes turn instructions from the navigation system over the roads ahead, lets you know if you're drifting out of your lane and indicates which vehicle is detected ahead of you (grade dependent).

**Wide sunroof.** Airflow adds to the sense of openness. The roomy dimensions of the Kia EV6 seem to expand with the wide tilt-sliding sunroof. It takes full advantage of the roof geometry, offering a broader opening for light and breezes (grade dependent).

# Cargo space as big as your ideas.

Designing the Kia EV6 based on our new Electric-Global Modular Platform gave us new possibilities, especially when it comes to cargo storage. The Kia EV6 lets you store items in places you never imagined. Under the front bonnet, under the rear cargo floor, under the cargo screen and even in spaces between and under the seats. But in case you need to accommodate even bigger items, the rear seats also fold. Because ideas come in a wide range of sizes.

**Smart power tailgate.** The power tailgate can be set to open automatically to a desired height.

**Remote second-row seatback folding.** Pull the remote release lever on the wall of the cargo space to fold the rear seatback down, creating 1,300 l of storage capacity. With the lever's convenient location, it's like having an extra pair of hands when you need to load long or bulky items.

**Console tray.** The center console includes an armrest, cup-holders, a wireless charging pad above, and an open tray below that can hold shoes, tablets, or handbags (grade dependent).

**Front storage trunk (20 l, 52 l).** Extra space is a useful benefit of the new Kia EV6 platform. That includes a convenient storage space under the front bonnet. It holds up to 20 l on AWD models and up to 52 l on RWD models.

# Relaxation as a design objective.

With a flat floor and a broad-shouldered frame, the Kia EV6 gave our designers more freedom to create the best design for you. The seats take up less space, but deliver more. The zero-gravity premium relaxation seats provide a wide range of settings so that your body is in its most comfortable position, minimizing the fatigue or discomfort you might have experienced with conventional seats, especially on long drives or when you're waiting for your car to top up its battery. Because when you're more relaxed, ideas flow better (grade dependent).

**Relaxion comfort seats.** The front seats are slimmer, more comfortable and offer more adjustability than ever before. While you charge the Kia EV6, the relaxation seats let you recline to optimise your posture and better distribute the pressure on your body.

**Heated and ventilated seats.** Ventilated front seats give the driver and front passenger a more comfortable ride in warm weather. With the centre console touch buttons, both fans and heating can be controlled and adjusted to meet the needs of passengers in the front and rear (GT-Line S only).

**Second-row seat comfort.** The slim front seats, the unique E-GMP platform layout and the flat floor give rear passengers more legroom. There are headrests in every position, and a centre armrest incorporates a storage box with sliding cupholder. Air vents on the B-pillars offer refreshing airflow.

## Less time for worry, more time for inspiration.

### **Blind-Spot Collision-Avoidance Assist.**

When you signal a lane change, you are warned if a risk of collision is detected with a vehicle beside you or approaching from the rear. The system even interacts with your steering if the risk increases. Blind-Spot Collision-Avoidance Assist also watches out for you when pulling out of parallel parking spaces, warning you about oncoming traffic behind you (grade dependent).

### **Forward Collision-Avoidance Assist with junction turning and crossing.**

It uses a front-view camera and radar to detect any vehicles, pedestrians or cyclists ahead. By warning and braking automatically, it can help you avoid, or reduce the severity of an accident. The system also engages when you are crossing or turning at an intersection (grade dependent).

**Safe Exit Assist (SEA).** A warning sounds when an occupant attempts to open their door while a vehicle is approaching from the back. At the same time, the function automatically activates the electronic child lock to keep rear door closed (grade dependent).

Images shown are for illustrative purposes only and not to UK specification.

**Surround View Monitor.** Gone are the days when you need to exit the vehicle or ask others for help with tricky manoeuvres. Images from four cameras are synthesised to give you a 360° 3D view around the vehicle, so you can steer and park with confidence (grade dependent).

## Getting you out of tight situations.

With Remote Smart Parking Assist, you can park or unpark the Kia EV6 even if you aren't inside - perfect for tight parking spaces. Using your key, you can safely move the Kia EV6 into or out of a parallel or perpendicular space. Braking is automatic if the vehicle detects an obstacle (grade dependent).

**Rear Cross Traffic Avoidance Assist.** This warns you if there is a vehicle or pedestrian coming from the left or right while reversing. It automatically assists with emergency braking if it senses an imminent collision (grade dependent).

**Lane Keep Assist helps prevent risks associated with sleepiness or inattention.** It warns you and steers you back within your lane if you show a risk of drifting unintentionally out of it.

**Highway Driving Assist 2 makes motorway driving a breeze.** When engaged, it maintains you in your chosen lane and adapts your speed based on the limit in force, the vehicle ahead of you or the curvature of the road. Turn your signal on and it helps you change lane. It also steers you away from vehicles beside you if they are drifting too close (grade dependent).

# Kia Connect (UVO)...

## Your free seven-year connected services.

Kia Connect (UVO) opens your Kia to the world of connected services. Once activated, it enables a number of essential digital features in your car. You can also install the Kia Connect (UVO) app on your smartphone and pair it with your Kia to control certain functions remotely and consult a wealth of information about your car.

### In-car services

**Your free seven-year Kia Connect (UVO),** once activated, uses your vehicle's embedded SIM card to connect it to the world of live data.

#### Real-time traffic information

Your navigation system uses live traffic information to recommend the best route and dynamically predict the most accurate arrival time.

#### Speed cameras and danger zones

Be alerted to speed and traffic light cameras, and to areas where accidents are particularly common.

#### Weather information

With up to three days' weather forecast available, you can check weather conditions at your destination.

#### Points of interest

Are you looking for a place to eat, a local business or the nearest ATM? All this information and more is easily accessible via your Kia's live, connected directory.

#### Parking

Kia Connect (UVO) helps you find available parking locations. It shows on- and off-street parking locations, including prices and likely availability.

#### Fuel station information

The system shows you the nearest petrol stations and prices to plan a refuelling stop.

#### Charging station information (electric and plug-in hybrid vehicles only)

Your car gives you the location of charging stations, with useful information such as availability and charging speeds available.

Android Auto™ is designed to keep you perfectly connected to your phone while minimizing distractions so you stay safe on the road. The simple, intuitive interface lets you access features like Google Maps, apps, music and voice control, and automatically organizes info into simple cards that appear just when they're needed.

Apple CarPlay™ is a smart, safe way to use your iPhone while driving. It takes all the things you might want to do, and puts them into your display, so you can get directions, make a call and listen to music all while staying focused on the road.

### Mobile application services

**Once Kia Connect (UVO) is activated in your Kia,** it gives you access to a wide range of useful functionalities through the Kia Connect (UVO) mobile phone application (available on Apple™ and Android™).

#### Find my car and first/last mile navigation

You can check the location of your car from your smartphone. Your app can also use augmented reality to guide you to your car. When driving and parking before reaching your exact destination, your app can give you guidance to walk the last bit of the way using augmented reality or Google Maps.

#### Vehicle status

The Kia Connect (UVO) app gives you an overview of your Kia's status including fuel/battery level, doors, windows, bonnet or tailgate. It lets you know if any of the vehicle's functions isn't working properly. You can also use the app to consult information about your past trips or to obtain a summary of key stats for your past month's driving.

#### Notifications and remote door control

You get warned if your vehicle's anti-theft alarm is triggered or if you left your doors unlocked. What's more, you can lock and unlock doors from your phone, wherever you are.

#### User-profile-linked vehicle settings

Select your preferred vehicle settings from your phone for a tailored experience once you get behind the wheel.

#### Valet mode

Activate the valet mode in your car and you can track its location and speed on the app. Ideal when you lend your vehicle to an airport's valet parking service.

Kia services are available free of charge for a period of seven years commencing on the day the vehicle is sold to the first owner of the vehicle and may be subject to change during that period. You need a smartphone with iOS™ or Android™ operating system and your own data plan to operate the Kia mobile application. Your Kia needs to be in a location with Vodafone mobile signal to connect to these services.

# Reinventing how we charge.

The Kia EV6 multi-charging system operates with both 400 V and 800 V chargers without the need for an additional adapter. And unlike previous EVs, which only accept one-way charging, the Kia EV6 becomes your portable energy source wherever you are thanks to its Vehicle-to-Load functionality. So you can power any electric item you need for any inspirational journey (grade dependent).

In addition, the heat pump system recaptures heat waste from the motor and other electric components to reduce winter range loss by almost 19% (grade dependent).

**Electric Global Modular Platform (E-GMP).** The Kia EV6 is the first vehicle based on the Kia E-GMP platform. The new long-wheelbase platform is a clean slate. It introduces a flat floor, facilitating new comfort and utility choices. Its modularisation gave our engineers more options to meet tough performance, maintenance and safety objectives. In terms of performance, their aim was to achieve greater power, driving range and control, as well as shorter charging times.

**Charging port.** The charging port flap opens and shuts electronically. Just press the flap itself, or the button on the left of the dashboard controls. What's more, you can also use your smartphone or voice command. Inside the cover, a bar graph displays the charging level.

**Vehicle-to-load (V2L).** Get 220 V of alternating current to power your devices, inside or outside the Kia EV6. Fully charged, its vehicle-to-load feature offers 3.6 kW of power, enough to run a large TV screen or a medium-sized air conditioner for 24 hours. Inside the Kia EV6, just select EV Ready or Utility mode and use the outlet at the base of the rear seat. Outside, simply attach the vehicle-to-load connector to the charging outlet (grade dependent).

# Intriguing ideas. Inspired choices.

Let the Kia EV6 stimulate your imagination. Choose from our comprehensive range of high-quality accessories, all of which blend perfectly with its inspirational character. Whether you feel like adding an extra hint of distinction, or a touch of practicality, you can be assured that all our accessories are manufactured to the same meticulous standards as the EV6 itself.

**Door mirror trims.** Attention to detail can make all the difference. Raise the overall visual impact of your EV6 by complementing its exterior styling with these brushed aluminium optic mirror trims.

**Velour carpet mats.** Keep your cabin unblemished for longer. These high quality tailored velour carpet mats will protect your car's interior from everyday dirt and enhance its look at the same time. They feature the EV6 logo in the front row and are held in place with fixing points and anti-slip backing.

**Tow bar, detachable.** Whenever you have substantial cargo in tow, this top-quality, corrosion-resistant steel tow bar is ideal for efficient transportation.

**Front boot liner.** A perfectly fitting protective liner for the front boot, located under the bonnet of 2WD models. Made from 90% bio-based sources.

**Boot liner.** However wet, muddy or grimy things get, this custom-made liner made from 80% bio-based sources will protect your boot area. It is durable, anti-slip and waterproof with raised edges.

**Boot liner extension.** Specially designed to keep the backs of your folded rear seats in top condition when carrying larger items. Easy fixation and made from 90% bio-based sources.

# Space innovation.

From soft, durable suede, to vegan leather and recycled materials: the Kia EV6 is ergonomically designed for your body's comfort and your peace of mind.

It's not just about style. This is a new way of being.

**GT-Line & GT-Line S -**  
Black Suede and White  
Vegan Leather

**Air -** Black Vegan Leather

# 7 more reasons to join our Kia family

Now there are even more reasons to buy a stylish, technology packed Kia. Peace of mind comes as standard when you join the Kia family with the Kia Promise - 7 great owner benefits when you buy your Kia and register at MyKia.

There are a lot of things to consider when buying a new car. Compromising on reliability in the long term shouldn't be one of them. That's why Kia have redefined quality and offers a unique, industry-leading 7 year warranty that comes with peace of mind for at least 100,000 miles.

At Kia we care about you as an individual and want to deliver service that fits your needs. When you visit one of our Dealers for a service your vehicle will benefit from a complimentary vehicle health check, a wash and vacuum and alternative transport if needed. We look forward to spending time getting to know you!

With every new or Approved Used Kia you can get driveaway insurance and a £250 Excess Return voucher free of charge. All Kia owners can use our Accident AfterCare service and with Kia Care Service Plans we offer great value fixed price servicing.

Kia Charge gives you access to the majority of public charging infrastructure in the UK and across Europe. It lets you locate stations, plan journeys, charge and pay, all with one solution.

Our 24/7 Roadside Assistance package is designed for Kia owners in partnership with the RAC. All new cars have complimentary cover for 12 months from the first date of registration, giving you the highest level of cover provided by the RAC, including onward travel and European cover.

Connectivity with Kia Connect & Over-the-Air Updates. Kia Connect is our range of connected services both in-car and through the Kia Connect mobile app. Over-the-Air Updates keep your infotainment system up to date using your Kia's mobile data connection.

Online service booking offers convenience and flexibility 24/7. Offering quality and value at one of our Dealers nationwide. Kia trained technicians use the latest diagnostic equipment and technology. All of our Genuine Kia parts come with a 2 year warranty. Fully inclusive pricing at the click of a button.

**Kia e-Care**  
Service Plans

**Kia e-Care is a bespoke service plan to keep your fully electric EV6 in top condition.** Designed to give your car an annual check, including specific electric vehicle maintenance such as tyre rotation, brake cleaning and battery state of health reports as well as scheduled servicing. Our Kia trained technicians use genuine Kia parts, utilising Kia service tools and diagnostic equipment - so you can be confident that your Kia is in the best capable hands. Explore Kia e-Care to get a competitive fixed service price.

**7-year vehicle warranty.** Every Kia benefits from a 7-year/100,000 miles new car warranty (up to 3 years unlimited; from 4 years 100,000 miles). This bumper-to-bumper warranty is free and transferable to subsequent owners, provided the car is regularly maintained in accordance with the servicing schedule. (Terms and exclusions apply)

**Kia 7-year EV/HEV/PHEV Battery Warranty.** When you switch to a Kia Electric (EV), Hybrid Electric (HEV) or Plug-in Hybrid (PHEV), it's good to know that our batteries are built to have a long life\*. That's why at Kia we are happy to cover you for 7-year or 100,000 miles whichever comes first. Even for our low voltage (48 V and 12 V) batteries in Kia Mild-Hybrid electric vehicles (MHEVs), our Kia warranty covers you for a period of 2 years from initial registration regardless of mileage. All of which means you can simply enjoy the experience of driving our eco-friendly range, every day for years to come.

\*Kia high voltage lithium ion battery-units in electric vehicles (EV), hybrid electric vehicles (HEV) and plug-in hybrid electric vehicles (PHEV) are built to have a long life. These batteries are covered by the Kia warranty for a period of 7 years from initial registration or 100,000 miles, whichever comes first. For EVs and PHEVs Kia guarantees a minimum 70% capacity of the battery. Capacity reduction of the battery in HEV and MHEV is not covered by the warranty.

To minimise capacity reduction, follow the instructions consult the Owner's Manual. Find more information about Kia warranty at [www.kia.com/uk](http://www.kia.com/uk)

\*For full terms, conditions and exclusions please visit [kia.com/uk](http://kia.com/uk)
