

The Kia Sorento.

Movement that inspires

Forge your own terrain.

Wherever you're going, the Sorento Self-Charging Hybrid takes you there in style and comfort, with new design features that leave a lasting impression. You'll find new light technology with vertical LED tail lamps, a sporty rear skid plate and eye-catching garnish. The Sorento makes a statement whichever way you look at it.

Savour your own delights.

No matter where you are or where you're going, inside the Sorento you'll find the latest technology and connectivity, ergonomically combined with luxurious space, style and comfort. Ease into the high-quality interior with ambient lighting and discover Nappa leather seats with black headlining. Then there's the satin-effect dash garnish featuring 3D embossing and semi-chrome decor, as well as glossy black accents throughout the cabin to match the sporty exterior. Sit back and marvel at a 10.25" frameless navigation system with Kia Connect, as well as a 12.3" fully digital supervision display. Then hit the road and enjoy the 12-speaker Bose® premium sound system and a rotary gear shift dial. Your way, your style... without compromise.

Take charge of the possibilities.

Charging Cable & Control Box. The Sorento Plug-in Hybrid comes with a cable for charging at home from a regular, three-pin household socket. It integrates a control box to help you keep an eye on your charging session.

Charging port (with integrated charging indicator). Enjoy the convenience of easy charging at home or at public charging stations. The Sorento Plug-in Hybrid comes as standard with two charging cables. The first cable connects to UK three-pin sockets, whilst the second connects to Type 2 sockets. Whichever you choose, simply plug in and the LED light located near your charge port will indicate the charging status and battery level.

EV/HEV Button. This button lets you prioritise between electric and hybrid mode. In EV mode - ideal for urban driving - the Sorento Plug-in Hybrid prioritises electric-only energy for emissions-free driving*. In HEV mode, it operates both energy sources, changing between using the petrol engine only, the electric engine only, or both simultaneously depending on the situation.

*There are certain situations in which the petrol engine will automatically activate even when the vehicle is in EV mode. Examples could include: when the hybrid battery state of charge is reduced to a certain level, when acceleration demand is high and/or when it is required to heat up the cabin.

Images shown are for illustrative purposes only and not to UK specification.

Public charging made easy...

Kia Charge

Anxious about using multiple apps and accounts for charging across different public networks?

Worry not, Kia Charge gives you access to the vast majority of UK public charging networks including bp pulse, Pod Point, Source London, Instavolt, Shell New Motion, Osprey, Char-gy, IONITY and more. In addition, it works in 28 other European countries in exactly the same way as it does in the UK so you can travel long distance without any worries*.

The only app you need

You can start charging using either the app or dedicated card. And you don't have to make any payment on site: Everything is handled as part of a monthly, itemised billing process.

Reliable, up-to-date information

You have all information at your fingertips. You can apply a range of filters to find the right station, with up-to-the-minute information about availability and pricing.

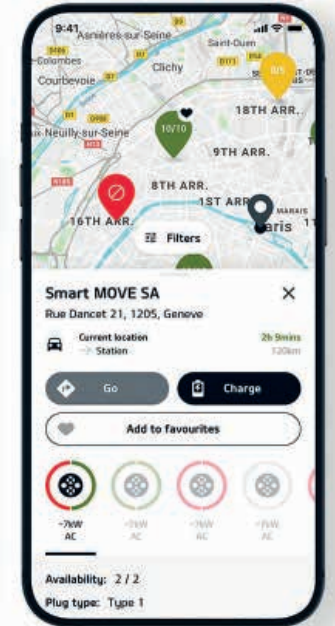

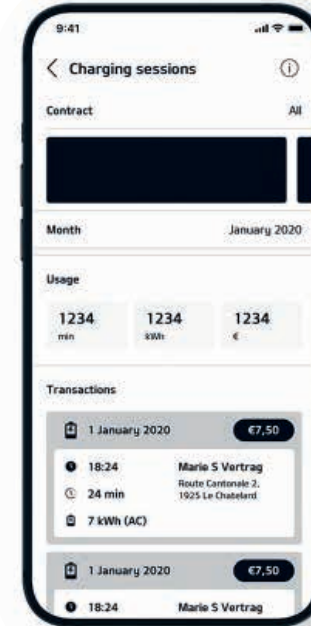

Transparent pricing with monthly payment

There are two base tariffs to choose from. 'Easy' is a no-commitment tariff for light users of public charging while 'Plus' is for those who tend to charge away from home more often.

Best value with a range of bolt-on subscriptions including IONITY

You can add up to two bolt-on subscriptions - for bp pulse and/or IONITY - to benefit from the best value possible when charging within these networks.

For more information, visit kiacharge.com or download the mobile application.

*Charging outside of the UK is subject to the visited country's Easy tariff, regardless of your UK subscription. Kia Charge and KiaCharge.com/gb are offered by Digital Charging Solutions.

Broaden your options.

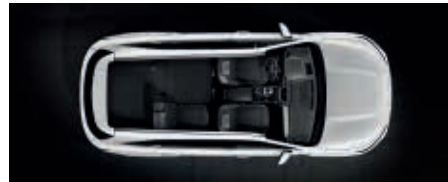

When your head says let's push boundaries, the Sorento says let's do it in style. That's why you'll find the ultimate in comfort, space and flexibility wrapped inside its bold exterior design.

2nd row folded fully flat (5-seater)

2nd row partially folded (5-seater)

3rd row folded fully flat and 2nd row partially folded (6 & 7-seater)

3rd row folded fully flat (6 & 7-seater)

3rd row partially folded (6 & 7-seater)

Seat split options. Whatever you've got planned and whatever you want to carry, the Sorento comes well prepared.

*The 6 & 7-seater images show a 7-seater Sorento

Smart power tailgate. Stand behind your Sorento and the tailgate opens automatically. You can also set your preferred opening height to suit situations with reduced headroom. Simply press and hold the tailgate button for three seconds to memorise your preference.

Flexible boot capacity with second-row one-touch remote folding. The Sorento can be transformed quickly from five seats to seven seats, and folding all rear seats is as easy as can be. For easy folding of the second-row backrests straight from the tailgate area, you'll find two remote-folding buttons, one for the left and one for the right.

Images shown are for illustrative purposes only and not to UK specification.

Kia Connect (UVO)...

Your free seven-year connected services.

Kia Connect (UVO) opens your Kia to the world of connected services. Once activated, it enables a number of essential digital features in your car. You can also install the Kia Connect (UVO) app on your smartphone and pair it with your Kia to control certain functions remotely and consult a wealth of information about your car.

In-car services

Your free seven-year Kia Connect (UVO), once activated, uses your vehicle's embedded SIM card to connect it to the world of live data.

Real-time traffic information

Your navigation system uses live traffic information to recommend the best route and dynamically predict the most accurate arrival time.

Speed cameras and danger zones

Be alerted to speed and traffic light cameras, and to areas where accidents are particularly common.

Weather information

With up to three days' weather forecast available, you can check weather conditions at your destination.

Points of interest

Are you looking for a place to eat, a local business or the nearest ATM? All this information and more is easily accessible via your Kia's live, connected directory.

Parking

Kia Connect (UVO) helps you find available parking locations. It shows on- and off-street parking locations, including prices and likely availability.

Fuel station information

The system shows you the nearest petrol stations and prices to plan a refuelling stop.

Charging station information (electric and plug-in hybrid vehicles only)

Your car gives you the location of charging stations, with useful information such as availability and charging speeds available.

Android Auto™ is designed to keep you perfectly connected to your phone while minimizing distractions so you stay safe on the road. The simple, intuitive interface lets you access features like Google Maps, apps, music and voice control, and automatically organizes info into simple cards that appear just when they're needed.

Apple CarPlay™ is a smart, safe way to use your iPhone while driving. It takes all the things you might want to do, and puts them into your display, so you can get directions, make a call and listen to music all while staying focused on the road.

Mobile application services

Once Kia Connect (UVO) is activated in your Kia, it gives you access to a wide range of useful functionalities through the Kia Connect (UVO) mobile phone application (available on Apple™ and Android™).

Find my car and first/last mile navigation

You can check the location of your car from your smartphone. Your app can also use augmented reality to guide you to your car. When driving and parking before reaching your exact destination, your app can give you guidance to walk the last bit of the way using augmented reality or Google Maps.

Vehicle status

The Kia Connect (UVO) app gives you an overview of your Kia's status including fuel/battery level, doors, windows, bonnet or tailgate. It lets you know if any of the vehicle's functions isn't working properly. You can also use the app to consult information about your past trips or to obtain a summary of key stats for your past month's driving.

Notifications and remote door control

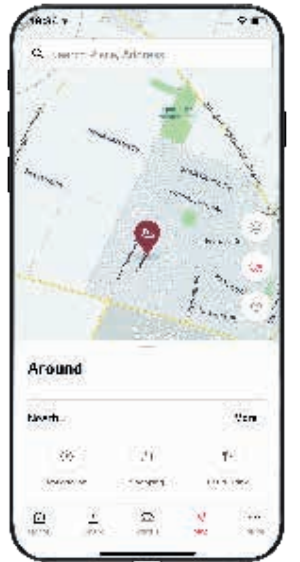

You get warned if your vehicle's anti-theft alarm is triggered or if you left your doors unlocked. What's more, you can lock and unlock doors from your phone, wherever you are.

User-profile-linked vehicle settings

Select your preferred vehicle settings from your phone for a tailored experience once you get behind the wheel.

Valet mode

Activate the valet mode in your car and you can track its location and speed on the app. Ideal when you lend your vehicle to an airport's valet parking service.

Kia services are available free of charge for a period of seven years commencing on the day the vehicle is sold to the first owner of the vehicle and may be subject to change during that period. You need a smartphone with iOS™ or Android™ operating system and your own data plan to operate the Kia mobile application. Your Kia needs to be in a location with Vodafone mobile signal to connect to these services.

Let DriveWise assist you.

No one knows what the road can throw at us, so the Sorento's DriveWise technologies help you remain safe and suitably relaxed. te.

Blind-Spot Collision-Avoidance Assist. When you want to change lane, Blind-Spot Collision-Avoidance Assist detects any vehicle(s) in your blind spot and alerts you with a warning symbol in your door mirror and on the head-up display inside the car. Should you start to change lane while a car is in your blind spot, the Sorento will automatically apply the brakes to avoid a collision, the side mirror and head-up warning symbols will flash and an audible alert will sound.

Blind-Spot View Monitor. Designed to improve visibility for blind spots, it displays images from the relevant rear-view side camera in the instrument cluster when you indicate.

Safe Exit Assist. This feature helps prevent passengers from exiting the vehicle when a potential hazard is approaching from the rear. When it detects danger, the system engages the power locks and gives an audible and visual alert.

Rear Occupant Alert. Uses ultrasonic sensors that are designed to detect children or pets in the second or third row, and gives visual and audible alerts if it detects movement inside - before and after the vehicle has been locked.

Multi-Collision Brake. If your airbag is fired in response to a collision, a signal is immediately sent to the Electronic Stability Control system to apply the brakes. This helps prevent or mitigate a subsequent collision.

Forward Collision-Avoidance Assist. Evaluating both camera and radar data, the system monitors other cars, pedestrians or cyclists ahead to avoid a potential collision. It also functions to prevent collisions with oncoming vehicles when making a right turn at an intersection. If it detects a potential collision, a warning signal appears on your instrument cluster and maximum braking power is applied.

Stay constantly connected.

From the moment you sit inside the Kia Sorento you'll discover an array of the latest information and entertainment technology, designed to put you in complete control for whatever adventures lie ahead.

10.25" Navigation System. Select your destination via the high-definition 10.25" touchscreen navigation system, featuring exclusive Kia Connect services. You get precise turn-by-turn guidance, dynamic route planning powered by live traffic data and much more.

360° Surround View Monitor. Assurance all round: this intuitive system combines four wide-angle images from cameras on the front, rear and sides of the vehicle to give you a comprehensive bird's-eye view of the space around the Sorento while parking or moving at speeds below 12 miles/h.

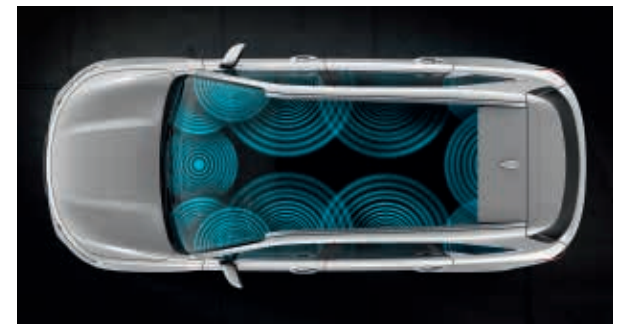

Wireless smartphone charger. Forget cables, you can charge your mobile phone wirelessly and effortlessly by placing it on the charging pad at the front of the centre console.

Head-up display. To ensure you keep your eyes on the road, the head-up display projects graphics and other driving-related information onto the windscreen, directly in your line of sight.

USB ports and power for all. Both the first-row seatbacks have integrated USB charging ports for the use of first and second-row passengers. Additionally, the cargo area features USB charging ports on each side for the third-row passengers. What's more, the rear centre console has a USB charge port and 12 V socket as well - perfect for playing games and charging.

Bose® premium surround sound system. Experience the very best in-car entertainment with 12 speakers, an external amplifier and cutting-edge technology. Transform any stereo or multichannel audio source into an astounding surround sound experience.

DriveWise technologies for safety and convenience.

The Kia Sorento provides comfort and safety on both short and longer journeys thanks to its suite of DriveWise features.

Rear Cross Traffic Collision Avoidance Assist.

To help make reversing safer - especially when you're reversing out of a parking space with limited visibility - this system gives audio visual warnings and assists with braking if it detects a vehicle approaching from the left or right.

Highway Drive Assist. When engaged on the motorway, this function adapts your maximum speed to the speed limit in force. It controls steering, acceleration and deceleration in your lane, while keeping a safe distance from the vehicle ahead.

Remote Smart Parking Assist. Remote Smart Parking Assist lets move your Kia Sorento in and out of tight parking spots while standing outside and using controls on your key fob. Your vehicle still monitors surroundings and stops if it detects an obstacle nearby.

Intelligent Speed Limit Assist. The system uses a camera to read speed limit signs along the road, and displays them beside the speedometer and on the navigation screen.

Parking Collision-Avoidance Assist. Using a rear-view camera and rear ultrasonic sensors, this prevents the vehicle from colliding with pedestrians or nearby obstacles when getting in or out a parking space. If it anticipates a collision with an obstacle, the system warns the driver with visual and audible alerts while engaging the vehicle's brakes to prevent a collision.

Lane Keeping Assist. At your side to keep you focused: a camera at the front of the car monitors lane markings. The system warns you and steers you back in your lane if you seemed to drift out of it unintentionally.

High Beam Assist. At night, the windscreen camera detects oncoming vehicles to automatically switch between low and high beam, guaranteeing the best visibility without blinding other road users.

Lane Following Assist. This system assists your steering to keep you in the middle of your lane. It takes the strain out of motorway driving when engaged together with Smart Cruise Control or Highway Driving Assist. This way, your car adapts its speed based on both your set maximum speed and a set distance to the vehicle ahead, while maintaining its place at the centre of the lane.

Driver Attention Warning. This system continuously gauges your attention level through your steering wheel, indicator and acceleration patterns. If you are showing signs of inattention or drowsiness, it alerts you and asks you to take a break.

Smart Cruise Control with Stop & Go and Navigation-based function. Using a camera and radar, Smart Cruise Control maintains your set speed, ensuring a safe distance between you and the vehicle ahead. It also controls acceleration and deceleration to ensure your vehicle stops when the vehicle ahead does and then moves off when the other vehicle moves again. What's more, the function uses navigation data to adapt speed to the curvature of the road; decelerating in bends when required.

Knowledge is power.

1. Launch. When starting out from a stop, the hybrid system relies entirely on power from the electric motor. This helps reduce fuel use in stop-and-go traffic.

2. Gentle acceleration. During mild acceleration, the system also uses power exclusively from the electric motor. It has ample pickup to help you increase your speed.

3. Full acceleration. When accelerating harder, the petrol engine works together with the electric motor to get the car to the desired speed.

4. Gentle acceleration. When cruising at relatively constant speeds, the system goes into power-assist mode, where the petrol engine is the main source of drive power.

5. Deceleration. The system's regenerative braking takes advantage of every decrease in vehicle speed, capturing energy and storing it in the battery for future use.

12.3-inch digital instrument cluster. An intelligently designed, customisable supervision cluster provides temperature information, tyre pressure alerts, and other essential vehicle and trip information. It also displays the status of the hybrid charging system, including fuel and battery levels and use.

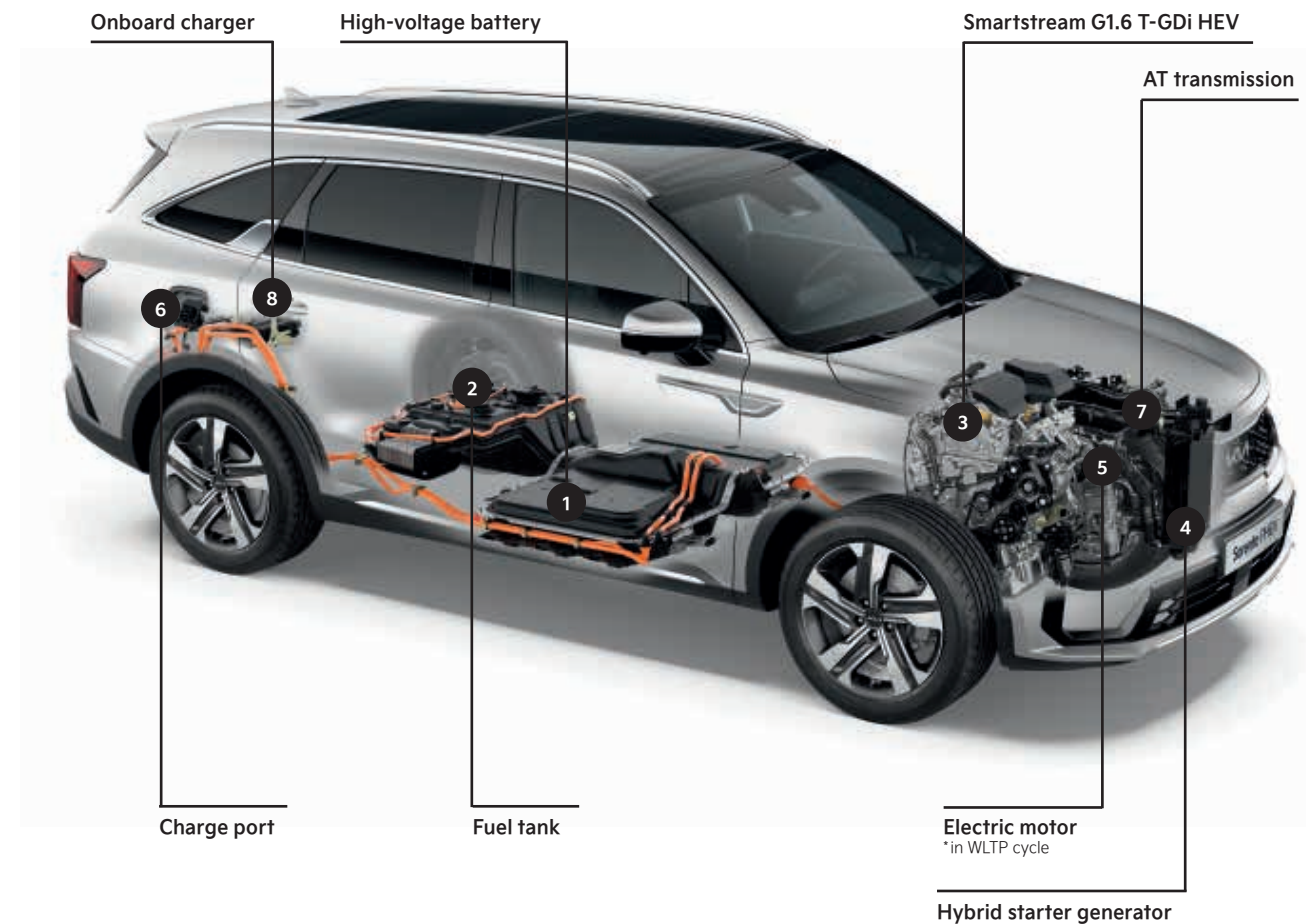

10.25-inch navigation system. With its high-definition and large display, the system delivers precise navigation guidance. Powered by Kia Connect services free of charge for seven years, its route guidance takes live and predictive traffic data into account to recommend the best route and accurately assess your arrival time. Its destination and points-of-interest search is connected for maximum relevance and reliability, and you can connect the system to your phone's Kia Connect app to access extra features.

Images shown are for illustrative purposes only and not to UK specification.

Embrace your future.

Self-charging Hybrid, or Plug-in Hybrid? It can be confusing, but Kia makes it simple with innovation and technology to match. Kia's self-charging hybrid system delivers frugality and performance, both in city and motorway driving situations. Featuring our most advanced powertrain, the Sorento Plug-in Hybrid allows you to charge its battery to benefit from up to 35 miles of electric-only driving. So if you charge at home, you can make the majority of your short trips without consuming any petrol at all.

Picture shown for illustration purpose only. Powertrain and electric systems may differ.

All-wheel drive for all-round adventure.

The Sorento's all-wheel-drive technology is designed to make every drive and adventure more comfortable. Innovative, continuously active all-wheel drive ensures the vehicle maintains excellent traction on rough, loose or slippery surfaces and helps improve lateral stability when cornering. And with the new Terrain Mode Select function, you can easily stay in control by switching between Drive mode and Terrain mode.

Drive with passion.

Go your own way with a range of the latest dynamic engine options. The Kia Sorento is offered with either a 2.2 CRDi diesel engine or a 1.6 T-GDi petrol engine with self-charging or plug-in hybrid technology. All versions benefit from all-wheel drive.

Drive Mode Select. The new automatic transmission offers a choice of drive modes that allow you to customise the powertrain's responses to driver inputs, enhancing your fuel economy or acceleration. The Sorento combustion diesel model offers four drive modes, Eco, Comfort, Sport and Smart, while the Sorento Self-charging Hybrid offers Eco, Sport and Smart modes. Drive Mode Select also adapts the weight of the rack-mounted power steering system, for more relaxed or more immediate, engaging steering responses.

Paddle shifters. Refined paddle shifters coordinate with the rest of the cabin's design and allow you to change gears swiftly without taking your hands off the steering wheel. They also boost driving dynamics, making it effortless to increase torque faster, while staying in control.

Rotary gear shift dial. Located centrally and within easy reach, the rotary dial operates using shift-by-wire technology, enabling effortless gear shifting. Just as importantly from a safety perspective, it will automatically shift to the parking gear P if the driver forgets to do so.

Dual-clutch transmission (DCT). The Sorento 2.2 CRDi comes with eight-speed dual-clutch transmission, which results in lightning-quick and incredibly smooth gear changes to give a more dynamic driving performance.

Automatic transmission. Both the Sorento 1.6 T-GDi HEV and 1.6 T-GDi PHEV come with six-speed automatic transmission, ensuring a smooth transition between gear changes.

Terrain Mode Select. The Terrain Mode Select system puts excitement at your fingertips, offering a smooth transition between Drive modes (Eco, Comfort, Sport, Smart) and Terrain modes (Snow, Mud, Sand). Choose Snow mode and it limits wheel slip on icy or snowy roads to ensure stability, while Mud mode allows for more aggressive torque application while limiting transmission upshift, helping wheels to spin to maintain momentum in mud. Sand mode prevents wheels from digging into sand by distributing optimal levels of torque to each wheel.

Style from the inside.

Your Kia Sorento says as much about you inside as it does out. That's why we have a whole range of interior options to choose from, including fabric and all-leather nappa.

For that stylish finishing touch, all leather seats come with brushed film garnish and 3D embossing, while black cloth seats come with a metal-effect paint garnish with 3D embossing. In addition, black leather seats featuring a black tone-on-tone detailing and black Nappa seats are complemented by a black interior headlining.

Make your mark.

When going your own way is seizing new challenges, seeking new adventures or sizing up what the day will bring, then the Sorento is ready with a whole range of Kia Genuine Accessories to match. From time away to time in the city, our selection of high-quality accessories offers clever solutions and special features to personalise your Sorento and make your driving experience a real pleasure.

Carpet mats, velour. Keep your cabin unblemished for longer. These high-quality velour carpet mats will protect your Sorento's interior from everyday dirt and enhance its look at the same time. Tailor-made to fit the footwells perfectly, they feature the Sorento logo in the front row and are held in place with fixation points and an anti-slip backing.

Roof bars, aluminium. Light and easy to install, these strong and perfectly fitting aluminium cross bars will help you transport all you could possibly need on your next adventure. Bike carrier Pro sold separately.

Side steps, sporty. Take your Sorento's styling up a notch with these robust side steps underlining the unique character of your car. Aluminium inlays and anti-slip rubber elements ensure easier access to the cabin & to roof-mounted accessories. Can be combined with mudguards.

Boot liner. Linked to 90% bio-based sources the boot liner supports responsible production of bio-based plastics according to ISCC (International Sustainability and Carbon Certification) requirements. The bio-based content is sourced from renewable feedstock in the form of wood and agricultural waste not suited for food production. Durable, anti-slip and waterproof with raised edges this custom-made liner protects your trunk from wet, muddy or grimy things and is easy to clean.

Tow bar, retractable. Would you like to combine even more comfort with efficient transportation? Deployed and retracted via a switch located in the boot, this fully-electric tow bar conveniently folds up and sits invisibly behind the lower bumper when not in use.

7 more reasons to join our Kia family

Now there are even more reasons to buy a stylish, technology packed Kia. Peace of mind comes as standard when you join the Kia family with the Kia Promise - 7 great owner benefits when you buy your Kia and register at MyKia.

There are a lot of things to consider when buying a new car. Compromising on reliability in the long term shouldn't be one of them. That's why Kia have redefined quality and offers a unique, industry-leading 7 year warranty that comes with peace of mind for at least 100,000 miles.

At Kia we care about you as an individual and want to deliver service that fits your needs. When you visit one of our Dealers for a service your vehicle will benefit from a complimentary vehicle health check, a wash and vacuum and alternative transport if needed. We look forward to spending time getting to know you!

With every new or Approved Used Kia you can get driveway insurance and a £250 Excess Return voucher free of charge. All Kia owners can use our Accident AfterCare service and with Kia Care Service Plans we offer great value fixed price servicing.

Kia Charge gives you access to the majority of public charging infrastructure in the UK and across Europe. It lets you locate stations, plan journeys, charge and pay, all with one solution.

Our 24/7 Roadside Assistance package is designed for Kia owners in partnership with the RAC. All new cars have complimentary cover for 12 months from the first date of registration, giving you the highest level of cover provided by the RAC, including onward travel and European cover.

Connectivity with Kia Connect & Over-the-Air Updates. Kia Connect is our range of connected services both in-car and through the Kia Connect mobile app. Over-the-Air Updates keep your infotainment system up to date using your Kia's mobile data connection.

Online service booking offers convenience and flexibility 24/7. Offering quality and value at one of our Dealers nationwide. Kia trained technicians use the latest diagnostic equipment and technology. All of our Genuine Kia parts come with a 2 year warranty. Fully inclusive pricing at the click of a button.

Kia Care

Service Plans

For complete peace-of-mind, Kia can offer you a great value fixed-price servicing package for your Sorento which is called Kia Care. Please speak to your Kia dealer for more information and pricing. Terms and conditions apply.

Log onto www.kia.com/uk for details.

5-year paint warranty & 12-year anti-perforation warranty

High-quality body paint ensures long-lasting protection and shine for your New Kia. It also comes with superior corrosion protection and a 12-year warranty against rust from the inside out.

Financing

Your local Kia dealer can help you with a financing plan that's best suited to your needs. Log onto www.kia.com/uk for more details.

7-year vehicle warranty. Every Kia benefits from a 7-year/100,000 miles new car warranty (up to 3 years unlimited; from 4 years 100,000 miles). This bumper-to-bumper warranty is free and transferable to subsequent owners, provided the car is regularly maintained in accordance with the servicing schedule. (Terms and exclusions apply)

Kia 7-year EV/HEV/PHEV Battery Warranty. When you switch to a Kia Electric (EV), Hybrid Electric (HEV) or Plug-In Hybrid (PHEV), it's good to know that our batteries are built to have a long life*. That's why at Kia we are happy to cover you for 7-year or 100,000 miles whichever comes first. Even for our low voltage (48 V and 12 V) batteries in Kia Mild-Hybrid electric vehicles (MHEVs), our Kia warranty covers you for a period of 2 years from initial registration regardless of mileage. All of which means you can simply enjoy the experience of driving our eco-friendly range, every day for years to come.

*Kia high voltage lithium ion battery-units in electric vehicles (EV), hybrid electric vehicles (HEV) and plug-in hybrid electric vehicles (PHEV) are built to have a long life. These batteries are covered by the Kia warranty for a period of 7 years from initial registration or 100,000 miles, whichever comes first. For EVs and PHEVs Kia guarantees a minimum 70% capacity of the battery. Capacity reduction of the battery in HEV and MHEV is not covered by the warranty.

To minimise capacity reduction, follow the instructions consult the Owner's Manual. Find more information about Kia warranty at www.kia.com/uk

Fully unlock these benefits when you register at **MyKia**
